LLL 44-MN: The course has reached in its final form – identified as February 2026 in the LLL site at <https://lllnutrition.com/tlll2/login/index.php>.

After ESPEN-Prague, the MN-LLL has been delivered in the Netherlands (web-05Nov25), Finland (web-14April)

It will be delivered in Kuwait (web-19May), and Austria 05 Nov.-Annual Austrian society.

LLL-44 ESPEN-Berlin will be delivered on Friday **4thSEP/ 14:30 – 18:00**

MN-web APP: not as often downloaded as expected—Anna Schweinlin: 480 site-visits between SEP and DEC 2025

Imaging to support clinicians:

The team would like to enrich the course with pictures of clinical emblematic cases. One option (proposed by MH) to reduce the copyright problem issues is to create an additional document accessible to LLL students and members on the LLL site.

Two situations:

- 1) image from a published paper – the person who proposes the image should contact the journal and ask for permission
- 2) photo made by a SIG-MN member: it needs protection – please use creative license or alternatives: https://en.wikipedia.org/wiki/Creative_Commons_license, <https://creativecommons.org/cc-license-your-work/>

Varia: Karin: VITALIZE nearly done – missing only 100 anticipated end of recruitment is May / June 26 – BRAVO!

Next meeting:

- **SIG-MN** meeting in Berlin 2026 – Sunday **06 Sept.:** 12:00-14:00
- **Open meeting 1-2PM:** proposal by Christian Stoppe to prepare teasers with puzzling cases, to make the session more interesting and educative (Cases with 5 slides: – what happened - what to do next?)
Miriam V.D.W will propose a case preliminary
Please send your cases in the group **by 31 July**, so that we can announce this change
